

SYM Knife®

SYM Quadra / Tres

for Microtome & Ultra Microtome

Huge boat collects numerous sections at once

Specialized specifications for collecting serial sections

Features of SYM Quadra

Point 1: 3-inch wafers can be installed as is without cutting

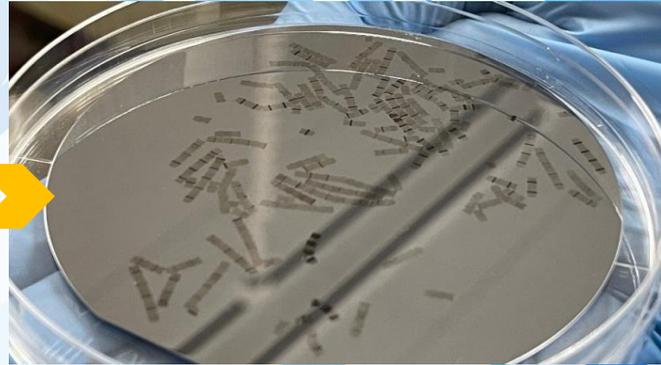

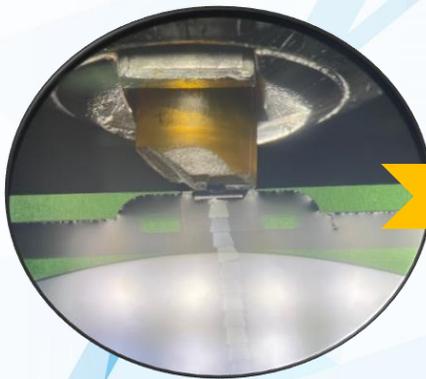

3 inch wafer in the boat

The boat shape

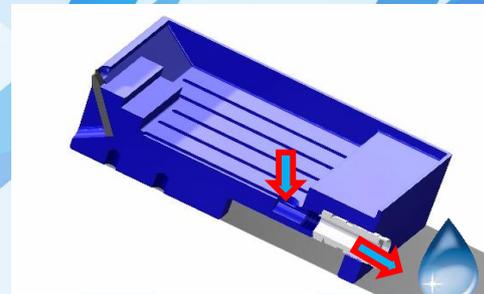

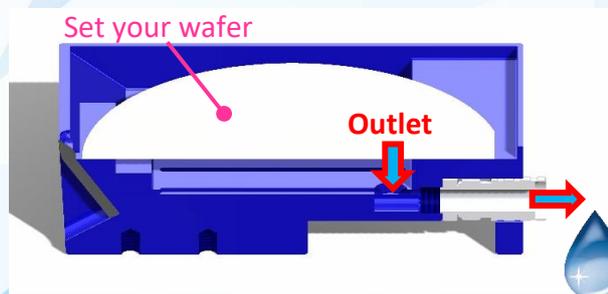

The structure inside the boat has the suitable form for setting wafers, and a 3-inch silicon wafer fits perfectly.

Point 2: A lot of ribbons can be placed in one piece

As shown in the photos above, many serial sections can be gathered on a wafer.

Point 3: It has a drainage mechanism for collection

Serial sections can be collected easily, wrinkle-free, and quickly using a drainage mechanism.
